

COUNT GOLD COAST EXPANDS

I would like to announce some exciting news for Count Gold Coast. We have purchased Jonathan Grant Accountants (JGA), a Burleigh Heads-based accounting firm with 20 years' of history providing financial services to communities in South-East Queensland.

JGA's clients will experience service continuity with owners Grant Robinette and Jonathan Hanaghan set to join Count Gold Coast as Principals and shareholders based in the business' Coolangatta office.

Here at Count Gold Coast, we have a highly experienced and capable team that will benefit greatly from Grant and Jonathan's leadership. Importantly, the expanded business will be able to service more clients in the community and maintain the strong relationships that have been formed at JGA.

The combination of Count Gold Coast and JGA brings together the complimentary skills and resources of 2 professional service firms, each with 20+ years standing on the Gold Coast, into a single business for the benefit of our clients and our team. The addition of Jonathan, Grant and the JGA team to our existing Coolangatta team positions Count Gold Coast as a leading professional service firm in the Southern Gold Coast & Northern NSW area.

Please contact your dedicated Accountant, Adviser, or myself if you have any questions.
